EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David Belasco on 11/01/04.

The application has been amended as follows:

In the specification, prior to "Detailed description of the preferred embodiment", -
--Figure 8 is another embodiment illustrating the needle shield for a catheter in a first, closed position and second, open position.

Figure 9 is a perspective view of Figure 8 embodiment illustrating the means for securing the needle shield.

Figure 10 is a perspective view of Figure 8 embodiment illustrating the sealable membrane preventing fluids from leaking from the needle shield.

Figure 11 is a perspective view of another embodiment illustrating the needle shield for a catheter in a first, closed position and in a second open position.

Figure 12 is a perspective view of Figure 11 illustrating the mating lips of the needle shield in a first, closed position and in a second, open position. ---

Claims 8-14 have been cancelled.

Drawings

The following changes to the drawings have been approved by the examiner and agreed upon by applicant: The drawings filed 12/24/03 have been approved.

Election/Restrictions

Claim 2 is generic to species 1 and 2 and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 6-7, directed to the species of 2 is no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim. However, claims 8-14, directed to the species of figures 8-12 remain withdrawn from consideration since they do not depend upon or otherwise include all the limitations of an allowed generic claim as required by 37 CFR 1.141.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

This application is in condition for allowance except for the presence of claims 8-14 directed to non-elected species 3 and 4 without traverse. Accordingly, claims 8-14 been cancelled.
